Forecast For East of England
Issued by Met Office Exeter
at 0400 on Tuesday 28 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy and rainy, drier later.

Today:
A cloudy start to the day with spells of rain, mostly in the west at first. Heavier bursts of rain are expected to move eastwards throughout the morning, gradually easing during the afternoon but remaining cloudy and breezy. Maximum temperature 9 deg C (48 deg F).

Tonight:
A mostly dry night with the cloud gradually breaking up, misty conditions possible under clear skies in the early hours of the morning. Rain approaching from the west by dawn. Minimum temperature 4 deg C (39 deg F).

Wednesday:
Cloud and rain quickly spreading from the west early in the morning, heavy at times and with blustery winds. Drier in the afternoon but still breezy and feeling very mild. Maximum temperature 14 deg C (57 deg F).

Outlook for Thursday to Saturday:
Thursday cloudy with outbreaks of rain, possible drier spells overnight. Good chance of sunshine on Friday, staying dry. Cloudy again on Saturday, chance of light drizzle. Feeling mild throughout.
